AMENDMENT AND RESPONSE TO OFFICE ACTION

In the Claims

1. (twice amended) A method for altering fertility or treating a reproductive disorder in a female mammal in need of treatment thereof comprising administering a compound altering lipoprotein, LDL, HDL or cholesterol levels in the mammal in an amount effective to ~~alter~~ enhance or restore fertility or treat a reproductive disorder in the mammal.
2. (amended) The method of claim 1 wherein the compound alters SR-BI expression in ~~the~~ a tissue.
3. (original) The method of claim 1 wherein the compound alters binding of SR-BI to high density lipoprotein including cholesteryl ester or other lipoproteins.
4. (currently amended) The method of claim 2 wherein the compound decreases SR-BI expression in a the tissue of the mammal.
5. (currently amended) The method of claim 2 wherein the compound increases SR-BI expression in a the tissue of the mammal.
6. (currently amended) The method of claim 3 wherein the compound decreases SR-BI binding to lipoprotein or transfer of cholesteryl ester in a the tissue of the mammal.
7. (currently amended) The method of claim 3 wherein the compound increases SR-BI binding to lipoprotein or transfer of cholesteryl ester in a the tissue of the mammal.
8. (original) The method of claim 1 wherein the mammal is a female and the compound is administered in an amount effective to prevent normal reproductive function.

AMENDMENT AND RESPONSE TO OFFICE ACTION

9. (previously amended) The method of claim 1 wherein the mammal has a disorder characterized by an overproduction of steroids.

10. (previously amended) The method of claim 1 wherein the mammal has a disorder characterized by an underproduction of steroids.

11. (canceled)

12. (original) The method of claim 1 wherein the mammal has a disorder which can be treated by decreasing production of steroids.

13. (canceled)

14. (canceled)

15. (original) The method of claim 1 wherein the compound differentially alters the activity of, or expression of, SR-BI in different tissues.

16. (original) The method of claim 11 wherein the compound increases SR-BI expression in reproductive tissues and decreases or does not increase SR-BI expression in liver.

17. (canceled)

18. (canceled)

19. (withdrawn) The method of claim 1 wherein the compound is an antibody to SR-BI.

20. (previously added) The method of claim 1 wherein the compound is a drug that decreases production of steroids via selective binding to SR-BI.

21. (previously added) The method of claim 20 wherein the compound decreases cholesterol levels to decrease steroid levels.
